Secondary Containment

YOU ARE INVITED

The Pickaway USDA Service Center will be holding an *informational meeting about conservation programs*. The purpose of this meeting is to provide you with information about the various conservation programs that are available through the Pickaway County Farm Service Agency (FSA) & Natural Resources Conservation Service (NRCS) offices. Programs to be discussed include: (CSP) Conservation Security Program, (CRP) Conservation Reserve Program, (CREP) Conservation Reserve Enhancement Program, (EQIP) Environmental Quality Incentive Program, (WRP) Wetland Reserve Program, and (WHIP) Wildlife Habitat Incentive Program.

If you are interested in participating in any of these programs, and would like to know more about them, we would strongly encourage you to attend. Perhaps you would like to implement conservation practices or develop wildlife habitat on your property, but are unsure how to go about it. This meeting will help you decide if USDA programs can help you meet your conservation goals. The meeting will take place on February 23, 2006 from 7:00 to 8:30; it will be held at the Pickaway County Service Center (110 Island Rd.) in the large meeting room on the second floor (one door down from the Pickaway Soil & Water Conservation District office). NRCS, FSA, and SWCD staff members will be on hand to answer any questions you may have about conservation programs. We request that all those interested in attending this meeting register with the Pickaway SWCD office by calling 740-477-1693; registrations will be accepted no later than Tuesday, February 21st.
