

## Thank You Pickaway County!

### Successful District Tree & Fish Sale!

7,650 tree seedlings  
have been planted and  
9,888 fish fingerlings  
have been added to  
Pickaway County ponds.

## New Drill - Easier to Transport

The Pickaway SWCD traded their 15' John Deere no-till drill for a 10' John Deere no-till drill. Like the 15', the 10' has carrier wheels behind the drill body. Moving the drill on narrow roads and through narrow gates should not be much of a problem. The new drill will plant both bulky warm season grasses and the commonly seeded dense seeds like soybeans, wheat, oats, and legumes.

The rental rate for the new drill is \$9.00 per acre. An agreement form must be completed and turned in to the Pickaway SWCD office prior to using the drill. The agreement form is available online at [www.pickawayswcd.com](http://www.pickawayswcd.com). Click on Rental Equipment in the left column.
